Army Housing Costs Here To Be Probed

Charges Friday by Sen. Byrd (D) of Virginia of excessive costs in housing construction at the Granite City Engineer Depot have resulted in plans for an investigation by the House Armed Services Committee, Cong. Melvin Price, a committee member, said Saturday. Saying he will seek an early start in the probe, he said, "It appears that a serious mistake has been made in contract procedures."

Price plans to confer with the Army Corps of Engineers and Army Secretary Wilbur M. Brucker. Construction of housing at the base, planned in 1955 and started in 1956, was handled by the district engineer's office in Chicago and not at the local installation.

Byrd said a project cost \$916,136 instead of a \$642,000 limit set by Congress, with negotiated amounts for refrigerators, ranges, fences and gates increased to avoid the limit. He charged that federal law was violated in that the Engineer Corps failed to report the cost excess to the comptroller general and president.

"A SOUND MIND IN A SOUND BODY IS TO BE PRAYED FOR"

In ancient days a sound body was truly a blessing for then known medicals gave very little help. Plagues would overnight decimate or wipe out cities. Any surgical operation was a death-defying ordeal.

Physicians can now prescribe effective medicines for which monarchs would have given their kingdoms in grateful payment. Yet these new drugs, many of which cost millions to research and perfect, are a few cents per treatment. They not only save lives, but by lessening sickness-time and requiring fewer visits from physicians, actually save you money.

Amvet Commander Urges Increased Vet Interest

"One of our chief objectives is to get more veterans interested in veterans' organizations," Edwin P. Fifeleski, State Commander of the Illinois Amvets, told members of three Quad-City Amvet posts in an address at the Club Delmar Thursday night.

Fifeleski, currently on a tour of Amvet posts in downstate Illinois, said that roughly 90% of veterans who qualify for membership do not belong to the Amvets or any similar group.

"We are seeking to overcome the apathy and lack of interest shown by so many veterans, especially in legislative fields where they are particularly concerned," he added. "The only method of doing this is by enlarging our membership and making sure the veteran is well-informed and will act to support Amvet policies and projects which are to his own benefit."

In the audience at the Thursday dinner meeting were 50 members of local Amvet posts 51, 187 and 204. Club Delmar is headquarters for Granite City Post 51.

Fifeleski and his wife, who accompanied him here and served as his secretary, are currently on their second visit to Fifth Amvet District since he took office as state commander.

Since June of last year they have traveled about 25,000 miles, visiting various posts and establishing new ones. The Amvets have some 15,000 members in Illinois, of which 1500 reside in the fifth district, which is com-

manded by Vasil Gravelle of Madison.

The commander also spoke on the importance of veterans' service work and common projects, "the prime goal of our organization."

Prior to his appearance here, Fifeleski had visited Mount Vernon, Salem, Centralia, Marion, East St. Louis and Belleville, establishing new Amvet posts in each of these cities.

McKenzieboro and Mount Vernon. He and his wife visited posts in Alton and Edwardsville Friday, then returned to their home in Chicago.

County To Invest \$100,000 Idle Funds

Jackson county funds in the amount of about \$100,000 are to be invested in interest-bearing U. S. Treasury notes, it was decided last week by the county board of supervisors, meeting in Edwardsville.

The investment in short-term Treasury notes, with interest derived to be credited to respective funds, with the temporary loan to be repaid from anticipated revenues.

A petition containing over 1000 signatures, asking a "negative vote" on possible creation of an office of county supervisor of assessments and employment of a private appraisal firm to value property in the county for tax assessment use, was referred to the board's finance committee.

The petition had been presented by the Madison County Taxpayers Association.

TELEPHONE TALK

WONDERFUL COMMUNITY ASSET

The other day I had occasion to go through the new bank and steel company building which is nearing completion in downtown Granite City. It is beautiful. This will be one of the finest assets our community has ever acquired and stands as another example of the faith placed in the future of the Quad-Cities.

HOW WE MANAGE THE TELEPHONE BUSINESS

With the beginning of a new year, many folks take stock of their old resolutions and make any changes that are needed.

Here at the telephone company there's one resolution that never changes, no matter how many times we review it. It is to manage the business in the best interest of the public, employees and shareholders.

The telephone company exists for one purpose: to furnish you the best possible telephone service at reasonable cost — a cost consistent with financial safety and fair treatment of employees.

Good service, of course, is our first objective. But since the only good service is one that continually improves, a planned program of service improvements is called for. Some examples: During 1959, \$186,000 spent in expansion of outside cable facilities \$215,000 spent in addition of 2000 telephone numbers and other central office equipment.

Extended area calling to Collinsville and East St. Louis.

Improvement of telephone service is a big job, but probably the biggest of all is expanding the telephone network. Just look at the growth here in the Quad-Cities.

20,687 phones today, compared with 11,648 in 1950, and one out of 7 residential customers has at least one extension phone.

Providing good service takes good people. That's why fair treatment of the company's employees (56 of whom are in the Quad-Cities) is a major management responsibility.

Good service also takes willing owners, folks who've invested savings in the business and depend on management to run it in a sound, profitable manner. If their money can't earn a reasonable profit in the telephone business, who can expect them to continue investing in it with?

With good earnings, we can plan ahead with confidence, built for the future, striving always to give you the best telephone service we know how.

CURE FOR AFTER-HOLIDAY BLUES

Now that the holiday excitement is over, it seems almost too quiet around the house. Sure, the slower pace is welcome. But still, there's a bit of a letdown.

One of the best remedies I know for this "after-holiday letdown" is to have a nice chat with friends or relatives out of town. You can call to thank them for a gift or just to say "hello."

Why not phone tonight?

Call by number. It's twice as fast.

Young Back, Leads MHS to Win over Shells

Jacob Young Jr., with three more games tucked onto the number of those he will be able to play in prep circles, after a mixup in official records was straightened out late last week celebrated Friday night as he scored 24 points to pace the Madison Trojans to a 62-55 win over Roxana in a Midwest Conference basketball game.

It turns out, quite happily for Madison fans and Coach Charles "Buddy" Mueller, that Young will not reach his 19th birthday until Jan. 25, and the least surprised by it all is Jake Young himself.

Young was at his ball-handling best against the Shells' slow down tactics Friday as Madison won its fourth conference game in five tries, but not before experiencing some trouble.

Young hit eight quick points in the first quarter, most of them off Mueller's pattern plays against the Shells' man-to-man defense, as the Trojans moved to a quick 16-7 advantage.

Pulls Shell Regulars
Roxana Coach Bob Kistack, disheartened with his regular performance against the Madison first-quarter press, benched them all and inserted his junior "shock troops" as the second quarter opened.

With Roger Roman and Leonard Chaires rimming six points each, the Shells closed the gap steadily, trailing by only one at halftime, 25-26.

Burt Tucker pulled the visitors even with a three in the first seconds of the third quarter, but, after Ed Walker and Roman had traded baskets for a 28-28 tie, Young hit three straight buckets, Lemon Smith strong five straight points, and Young scored again.

Out came the Shell replacements with Roxana trailing 41-32, and the Kistack regulars chopped away, trailing 43-35 as the quarter ended.

Shells Stay Close
Madison threatened to break away several times in the final quarter, stretching its lead to 10 points on four occasions, but each time the Shells rallied. Roxana pulled as close as four points, 55-51, with three minutes left when Joe Dugan hit on both ends of a bonus free throw opportunity.

Walker, double-teamed by Roxana in the post, was "held" to 19 points in the game, but he went in the late going with accurate shooting from the charity stripe.

Remembered in recent years as a pressing team, the Shells did not come out to pick up Big Green players until late in the final quarter, while Madison pressed for the entire game, making several mistakes by the visitors, but also leaving Shell players open for easy lay-ups on several occasions.

Visitors Hit 45%
Roxana performed better from the field against Madison than it had against any previous opponent this season, hitting 23 of 50 shots for 41.8%. The Trojans, despite a 4-for-14 second quarter, finished with 25 field goals in 60 attempts for 41.6%. Roxana converted only nine of 22 free throws, and Madison 12 of 22.

Madison's junior varsity, which has yet to play good ball on its own court this year, according to Coach Ashley, fell before a Roxana JV team fell moved the ball well all evening in the preliminary game, 55-51.

The varsity scoring: Madison—Young 24, Walker 10, Smith 7, George 7, Griggs 10, Dugan 2, Roman—Roman 10, Dugan 8, Hall 7, Chaires 6, Davidson 6, Angleton 4, Thomas 4, Parsons 3, Tucker 1.

Rams Must Forfeit 3 Games Due To Age Error

Peter Brown, 6'2" forward for the Lincoln Rams, has been declared ineligible for three of the four games in which he played this year before high blood pressure forced him on the bench.

Al Willis, president of the Illinois High School Association, ruled last week that Brown was over age as of Oct. 3 and that any game he played after that will be forfeited. High school players must be under 19, in Illinois.

Games against St. Paul of Highland, Summer of St. Louis, Lincoln of East St. Louis, Vashon of St. Louis and Lovejoy of Mounds City were involved, but a victory in one of the two Missouri games will stand because that state has an age limit of 20.

An incorrect certificate was blamed for the error. Another player is also under investigation by the association because of a clerical mistake made several years ago on an eligibility paper which is sent to every team that Lincoln plays.

Mrs. Durbin Named Secretary Of Bubblemasters
Mrs. Vyvian Durbin was elected secretary of the Bubblemasters during the organization's first meeting of the year, yesterday, at the Y.M.C.A. She replaces Mrs. William Carruthers, who resigned the position earlier.

All other officers were re-elected. President is A. J. Mueller Jr., vice-president William Kocak, treasurer Ernest Karandjef and training and safety officer, Carl Krohn.

Purchase of an air compressor for club needs was discussed and is to be a key club project this year. A series of refresher and training courses was discussed with the first course to begin at the February meeting.

The first 1960 class will finish its course this month, and a second course for adults is planned. It was agreed that the club will join the Illinois Council of Diving Clubs.

Approval of Bridge Repair Bids Received

Engineers' approval of McKinley Bridge remodeling bids was received last week enabling contracts to be signed with the two low bidders, Whiting Turner Construction Co. of Baltimore, Md., and General Contracting Co. of Granite City. Verbal approval was given by Henry Fischer and Paul Penney of the Hardisty and Hanover firm of New York, consulting engineers for the bridge. Written authorization was regarded as only a formality, since Fischer is a partner in the firm along with Clinton Hanover.

Byrnes is acting in the absence of City Clerk William Chensolt, who is attending a national railroad union convention.

Maintain Traffic
Whiting-Turner and General Contracting have been notified of the approval. Under the terms of the bidding, work must be completed within 20 calendar days, and traffic must be maintained in at least one westbound lane and one eastbound lane at all times. Plans include placing new toll booths in operation on a widened section of Main street by July 1. The program due for completion by Sept. 1 includes improving much of the bridge's surface, expanding all of it to four lanes and providing six access lanes in the toll area. Traffic is expected to decline somewhat during the construction work and then increase after the improvements have been completed. In the meantime, use of the bridge is continuing at a high level and all records were broken during December. Bridge Manager Henry McMillen has announced. 340,000 December Crossings The 340,290 vehicles crossing the Venice-to-St. Louis river span in December were the most in any month since the city acquired the bridge Nov. 21, 1958. The daily average of 10,977 also was a new record, as was the 78,519 weekly total reached Dec. 15-21. Figures for the month show 78,125 in the first week, 77,926 Dec. 8-14, 78,519 Dec. 15-21, 79,125 Dec. 22-28 and 36,349 Dec. 29-31. During the first 13 months and 10 days of city operation of the bridge, traffic has totaled 4,299,208, or 10,515 a day. **Signboard To Be Removed** The city currently is awaiting expiration of a 60-day notification period to take access to a lot at 3728 North Ninth street, St. Louis, in connection with construction of lanes leading to the western approach of the bridge. The 86-foot lot has been under lease from the bridge and is being used for a signboard. Several fund transfers were necessary in completing the first yearly budget of the bridge, and two other transfers have just been made for the second fiscal year, which began Oct. 1. The city has borrowed \$637 from its Missouri taxes fund, placing \$437 in the general and administrative fund to reimburse

Hardisty and Hanover for such "out of pocket" expenses as telephone calls and trips here, and devoting \$200 to the telephone and telegraph fund to meet telephone bills that have been running higher than anticipated.

Pension Rate Down
Contributions by bridge and other city employees to the Illinois municipal retirement fund will decrease slightly in 1960 from 9.6% to 9.54% of income, the city council has been notified. McMillen currently is preparing a bridge report requested by the highway division. It will deal with traffic over the bridge during 1959.

Income Tax Assistance Available On Fridays
A reminder to Quad-Cityans was issued today by G. Philip, district Internal Revenue director, that Fridays have been set aside as "taxpayers assistance day" at the IRS permanent office here in Granite City in the Commerce building, 1925 Edison avenue. "We believe that most taxpayers questions for filling out 1959 income tax forms can be handled by telephone, thus saving the taxpayer the inconvenience of traveling to the revenue office and waiting in line. "To best serve the public every Friday has been set aside through April 15, the deadline date. We are stressing the 'self help' method, because experience has proven this method is

very efficient and enables the service to assist the greatest number of taxpayers." Philip said more than a million returns are expected in the district with more than 450,000 representing returns involving refunds. These refund returns are processed according to date of receipt. "Those who file early will receive the first refunds, but remember, it takes time to process your return, verify the figures, certify it for refund and issue the check. "Allow us the necessary time to do these things after you file your return."

Building In GC Last Year Hits \$8,305,610

980 Permits Include
320 For New Dwellings;
April Was Peak Month

New construction in Granite City last year, while not equal to the all-time \$14,820,466 record set in 1958, amounted to \$8,305,610 in value and was the second highest year on record for the past six, according to the files of City Building Inspector Earl Bloomquist and City Clerk A. L. Stevens.

During 1959, the city issued 980 permits of which 320 were for new homes. In 1958, there were 802 permits issued including 346 new dwellings, indicating a steady growth in the residential area of the city. The average, it is noted, is nearly one new home a day.

Most of the home construction activity was in the Nanticoke area where new subdivisions continued to expand in 1959 and the city continued its growth through annexation of outlying areas to the northeast.

The drop in construction value last year from the 1958 total resulted from a decline in major projects. Included in the 1958 permits were the \$3,000,000 annex at St. Elizabeth Hospital, the \$2,800,000 office-lane building for Granite City Steel Co. and the First Granite City National Bank, three new grade schools and a junior high school valued at \$1,838,124—a total of \$7,628,124.

Rated second highest year before 1959 was 1956, when new construction was valued at \$8,079,735.

Six-Year Breakdown

A breakdown of the city's new construction in the past six years follows:

Year	Permits	Value
1959	980	\$8,305,610
1958	802	\$14,820,466
1957	775	\$14,185,815
1956	1069	\$8,079,735
1955	897	\$7,318,440
1954	540	\$4,780,050
Totals	5183	\$47,460,140

In the six-year period a total of 2123 new homes were included in the 1959 construction permits issued in the city.

A breakdown of new construction in 1959 shows April was the top month with 163 permits including 79 homes and a total value of \$1,388,784. Other million-dollar months were June with 102 permits, including 27 homes, and a total value of \$1,662,064, and March with 91 permits and a value of \$1,093,839.

FLORAL CLUB MEETS

Mrs. Lela Merrill entertained the Floral club at her home, 2419 State street, Wednesday afternoon, with Mrs. Lela Cunningham as co-hosts.

A pot luck luncheon was served at Mrs. Abbie Fox, 3014 Florence Hamilton, Mrs. Bertha Cunningham, Mrs. Anabel Murray and Mrs. Toke Bertram.

The afternoon was spent playing games, with all the ladies receiving prizes. The next meeting will be at Mrs. Bertram's home, 3334 Cleveland bid. Feb. 10, with Mrs. Hamilton as co-hosts.

Brownie Troop 76 held its first meeting Wednesday afternoon at the home of the leader, Mrs. Robert James, 2932 Wayne. Twelve girls introduced themselves and then played games and said the Pledge of Allegiance. Mrs. Jack Lehne, co-leader, assisted.

Jack Lehne, leader of Cub Pack Three, has finished recruiting new boys for two new dens to be organized Jan. 25. The boys of Pack Three are making table decorations for their blue and gold banquet to be held in the near future.

There were but two-million dollar months in 1958—July which set an all-time record with a total value of \$4,953,384, and June with \$3,154,235.

The rundown of construction last year by month, listing total number of permits, home permits (included in the total number of permits) and their values in that order, follows:

January—21, 9 and \$190,769; February—41, 8 and \$439,562; March—91, 28 and \$1,063,839; April—163, 79 and \$1,388,784; May—59, 2 and \$117,300; June—102, 27 and \$1,092,064; July—93, 18 and \$370,022; August—128, 65 and \$388,278; September—79, 30 and \$338,471; October—98, 33 and \$643,799; November—63, 25 and \$561,967; and December—42, 6 and \$868,035.

Final December Report

December's 42 permits, valued at \$868,035, included the following issued during the last 12 days of the month:

The permits include \$10,000 for electrical work, \$8000 for boiler and heating work and \$2000 to raise off an old cooling tower.

Harold Karandjoff obtained a \$34,000 permit for construction of a service station on the north side of the city at the intersection of Feihling roads to be leased by Standard Oil Co. and an \$8000 permit to build a new concrete Products Co. to erect a 681x400-foot warehouse at 4001 Braden avenue.
